**Example: How to Calculate Your Annual Lifetime Benefit Amount**

When you decide to receive your Annual Lifetime Benefit Amount, you will elect your Guaranteed Lifetime Withdrawal Date. On that date you will:

- 1 Find your age in the "Age Range" column. If you have a joint RetirePay version you will use the youngest covered person's age.
- 2 Find how many full contract years you've owned MassMutual Envision with RetirePay.
- 3 Locate the Withdrawal Rate where your "Age Range" meets your "Full Contract Years" on the table.  
To calculate your Annual Lifetime Benefit Amount, multiply your Benefit Base by the Withdrawal Rate.
- 4 Benefit Base x Withdrawal Rate = Annual Lifetime Benefit Amount
